

A new “My Account” feature has been added to the EZBorrow search platform: <https://ezborrow.reshare.indexdata.com>. This feature allows you to view current and past requests, and authenticate before initiating a search, as well as the option to save searches, save items, and create lists of saved items.

A *Login* link will now display at the top of the page:

After logging in, you will find the My Account options listed on the right side of the screen. Current requests can be found under *My Requests*, while past requests are listed under *Request History*. Each request is associated with a status, allowing for easy tracking of progress at any point in time. Additionally, there is a *Request Status Help* link in the My Account menu to provide further clarity on the meaning of each status.
